

The Healing Butterfly Tree

by Darlene Showers

Once upon a time, in a magical
forest stood a tree unlike any other
- The Healing Butterfly Tree.

**Its leaves
sparkled in
all the
rainbow
colors, and
its branches
were filled
with
butterflies.**

The butterflies were special because whenever someone in the forest felt sad or sick, they would flutter down and gently touch them with their wings, bringing comfort and healing.

The forest animals loved The Healing Butterfly Tree because it taught them that kindness and care could heal even the deepest wounds.

And so, the
tree stood
tall,
spreading
love and
healing to
all who
needed it.
